We are KIRBY Certified Builder in Saudi Arabia

Experience

This experience is a result of successfully completed various types of projects on a turnkey basis in the construction field mostly in the Steel Buildings.

Al Thinayyan Development Company is having a pool of trained and experienced staff and the latest machinery to execute the project on time irrespective of the size of the project in a professional manner with an emphasis on strict quality control methods.

KIRBY BUILDING SYSTEMS

As pioneers and global leaders in the field of pre-engineered steel building systems (PEB) outside the United States of America,

we have contributed significantly to the industry and learnt many things in the course of manufacturing over 65,000 buildings, across 70 countries. The most important of which is our credo: Customer First.

OUR SERVICES

TDC is one of the largest companies specialized in general contracting and pre-designed steel building systems, manufacturing, operation and maintenance.

Our creative team is the source of our strength, we specialize in the installation and erection of steel building systems including civil works of all kinds, as well as electromechanical works, fire fighting systems and alarms. TDC executed many projects throughout the Kingdom which included government facilities, commercial buildings, warehouses, factories, agricultural and recreational buildings, medical and educational facilities, hangars, and many others. Our business is characterized by providing the highest degrees of flexibility and development, and makes us always appreciated and trusted by our society and customers, which always ensures the addition of new elements and dimensions to all the work entrusted to us.

SINGLE-SOURCE CAPABILITY

With our combined experience in general construction and pre-fabricated steel building systems, whatever your facility space, use, schedule or budget requirements are, we provide the broadest range of single-source capabilities for every phase of your project.
